FIGHT TO A FINISH.

Battle for Open Shop Begun.

Sixteen Largest Printers in Washington Serve Notice on Employees.

President Will be Appealed to if Union Resorts to the Boycott.

Employers Prepare to Fill All Places of Union Men Who Quit.

WASHINGTON, Dec. 4.—[Exclusive Dispatch.] Sixteen of the largest printing houses in Washington today posted the following notice in their establishments: "On and after January 1, 1906, the composing-rooms of each of the following employing printers of Washington, D. C., will be operated as an open shop; the hours of labor will be nine."

The fight for and against the eight-hour day in printing is now fairly on, and investigations today indicate that the battle will be fought to a finish by the United Typothetae of America, composed of employing printers, on one side, and the International Typographical Union, composed of journeymen printers, on the other. Both sides are actively preparing for the fray.

An important proposition in the local situation has been presented on the side of the employing printers. The proposition is that the intended boycott of printing houses that decline to enter into the eight-hour agreement will be taken before President Roosevelt for adjustment, in so far as the employees of the Government Printing Office and other Federal departments are concerned.

Washington Star says: "The United Typothetae of America, to withstand the general strike of the printers scheduled to begin January 1, when, as desired by the International Typographical Union, an eight-hour work day is to go into effect. Schools have been established in New York, Philadelphia and Kansas City, where typists and monotypists are being taught to large classes of young men and women who will be expected to fill the places of strikers."

The National Typothetae has leased one of the largest printing houses in the United States and it is being used as a school of instruction for preparing hundreds of boys and young men to go forth as book and job printers.

A school has been established in which young women, preferably High School graduates, are being instructed as machine operators, and in all offices in which workmen take place, boys and young men will be taken and placed under instructions, to be graduated as compositors, both for book and job work.

Many of the Washington printers are employed in the Government Printing office, which the employers state, according to the President's declaration, an open shop. "Now," they say, "the anomaly will be presented of a large number of government employees, themselves employed in an open shop, combining to do injury to an open shop by a boycott of business."

Washington because their proprietors are doing what the government has already done, declaring for an open shop and fighting to control their own business affairs in their own way.

President Roosevelt has declared against "pernicious activity" in politics. How much stronger will be his declaration under his "square deal" policy against a secret organization composed of government employees displaying "pernicious activity" in an effort to maintain or destroy certain private business interests in the District of Columbia.

HURT ON WAY TO LOS ANGELES. TOPEKA, Kan., Dec. 4.—[The local Atchison, Topeka and Santa Fe office report the wreck of No. 9, the fast California train, Sunday afternoon, at Topeka, Colo., about seven miles south of La Junta. The train was going about forty miles an hour. For some unknown cause the engine, the mail car, the baggage car, a smoking car, the tourist sleeper and a standard sleeper left the track. Only the mail car tipped over, the others bumping along on the ties. Two passengers were seriously injured. Mrs. Coulter, bound for Los Angeles, had her chest and shoulders badly crushed. Mr. McLeod, had his head badly bumped and one of his ankles broken. Two mail clerks, whose names were unknown, received slight injuries. The other passengers were more or less jolted and shaken up, but not seriously hurt.

A BLENDER TALK.

One-hundred-inch Wire to Carry Human Voice from New York to San Francisco, Says Professor.

PITTSBURGH, Dec. 4.—[Exclusive Dispatch.] Prof. Pupin of Columbia University is at work here on an experiment to prove that conversation can be carried on between New York and San Francisco on wire one-eighth of an inch thick.

He has invented a series of coils laid at way stations which carry sound waves ad libitum. His first successful test was made today between Sewickley and McKeesport to prove his theory. The American Electric Telephone Company is assisting him in his experiments, and a line from New York to San Francisco is to be completed by Thursday. The remaining stretch of ninety miles is to be completed in Dakota, and other short lengths in Colorado are to be connected.

The wires used in the experiment are heavy, and the electricity used to load the wires makes the present system of conversation over long-distance too expensive.

CLARK IS WITH THE PRESIDENT.

THE MONTANA SENATOR FAVORS RAILROAD REGULATION.

HEARST INDICES ROOSEVELT'S UTTERANCES ADVOCATING ABOLITION OF FREIGHT RATE INJUSTICES—WILL DO ALL HE CAN TO HELP THE ENACTMENT OF SUCH LEGISLATION.

HELENA, Mont., Dec. 4.—[Exclusive Dispatch.] "You may say to the people of Montana, from me, that I am heartily in favor of the abolition of freight rate injustices in all parts of the United States and that I will devote my attention and efforts in the Senate to the end that a fair and equitable law may rise from the discussion of railroad rates."

Thus spoke Senator William A. Clark, in answer to a request of the editor of the Helena mouth-piece, The Independent, that he give some expression to his views in reference to freight rate regulation and President Roosevelt's crusade in behalf of a fair deal from both the public and the common carriers.

"So far as I understand," President Roosevelt's program, I am in favor of," continued the Senator, "as I have indicated in my speech, he is in favor of abolishing freight rates, which is a very difficult proposition. He has truly said that it is a very difficult and delicate question, which must be approached impartially and with infinite patience. It is, in fact, not a question as to whether a fair deal should be given to the public, but rather it is a question as to how best to address and accomplish that recognized duty."

"Thus far the President's ideas about railroad regulation have been given in a general way by the President in his speeches, and as I understand them, they are good. The Senate, the House of Representatives, the public and the railroad men themselves will have a better and fairer understanding of the subject when it has been thoroughly threshed over, as you may be sure it will be during this session of Congress. The policy of an equitable regulation of railroads by the Federal government is recognized as an essential measure and President Roosevelt's eloquent advocacy of such legislation is properly admitted to be a manifestation of his broad Democratic regard for justice. A searching and determined investigation by Congress is certain to throw new light upon the position, and it is probable that out of it may come an ultimate and satisfactory law that will do right by all concerned."

SLAUGHTERED BY MINERS.

Frontier Caribou Rush Across Tanana Valley in Driven, and are Shot From Cabins and Decks.

YACOMA, Dec. 4.—[Exclusive Dispatch.] Probably never again in Alaska, and certainly not in Tanana, will there be a repetition of the scenes that featured the biggest run of caribou ever seen in Alaska during October. Several thousand caribou passed through the heart of the settled portion of the Tanana Valley. Miners shot them from their winter's meat. The miners killed enough for themselves and their families. The game was so plentiful that they would have spent for bacon if they had been able to find it.

ONLY ONE BODY RECOVERED. CHEYENNE (Wyo.), Dec. 4.—[A special to the Tribune says that only one body, that of March, has been recovered from the flood of the lower levels, where the pumps are unable to keep down. The mine has reached the level where the seventeen bodies are imprisoned but have not as yet been able to reach the rooms and the bodies are. State Mine Inspector Bradbury and General Manager White of the company are personally superintending the work.

CAPITOL CROWDED.

Fifty-ninth Congress Is Opened.

Proceedings in Both Houses Watched With Interest by Many Spectators.

Absence of Flowers on Desks of Members for First Time in Years.

Fairbanks Presides Over the Senate—Cannon Re-elected Speaker of House.

WASHINGTON, Dec. 4.—[Exclusive Dispatch.] The assembling today of the members of the Fifty-ninth Congress for their first session was marked by no unusual incidents, but it attracted to the Capitol crowds of spectators who took a lively interest in the proceedings. The day was beautiful. The sun shone brightly and the air was keen. Society was out in force and filled the reserved galleries, while visitors unable to find seats roamed the corridors to catch glimpses of public men.

In the Senate the proceedings were brief, but most of the spectators seemed to find as much to interest them in observing the Senators who remained on the floor after adjournment as they could have experienced had the session continued longer.

The House was in session for more than three hours, and while the proceedings followed the program that had marked the opening of Congress for many years, there was enough of interest to hold an exceptionally large audience during the entire time.

A noticeable feature was the absence of flowers which heretofore have been common in both chambers. On opening days the dais had been as usual, that the exhibition aides would have been sufficient to draw great crowds and the absence of floral tributes, due to a resolution adopted immediately by the Senate and to an order of the Speaker, robbed the occasion of its picturesque quality.

During the session Senators and Representatives visited the galleries and chatted with friends.

Senators Allison and Morgan were appointed by Vice-President Fairbanks as a committee to notify the President that Congress was ready for any communication he desired to make.

The Senate was in session only twenty minutes. Senators Aldrich of Rhode Island, Knox of Pennsylvania, Warner of Missouri and Prentiss of Tennessee, took the oath of office and an adjournment was taken as a mark of respect to the late Senator Fiske.

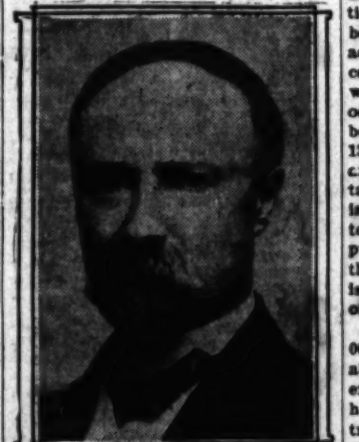

HOUSE ORGANIZATION. The preliminary steps to organization were taken by the House. Joseph C. Cannon of Illinois was re-elected Speaker; the members of the House took the oath of office; the officers and floor employees of the body were re-elected; the rules of the last Congress were adopted; the members went through the formality of drawing for seats, all of which was enlivened by the presence of crowds in the galleries, the animation of the reunion of veteran members and interest in new ones.

In a brief speech against the adoption of the rules, the minority leader, Mr. Williams of Mississippi, touched on the interest of the country in tariff legislation and to the "New Republic" ideas which are being wafted to Washington on the breeze from the West.

"MAC" GOES WAY BACK.

Los Angeles Representative Has to Take a Back Seat in the House.

WASHINGTON, Dec. 4.—[Exclusive Dispatch.] In the seat-drawing in the House today, the California delegation fared extremely well, with the exception of McLaughlin, whose number came out of the box late and he was compelled to accept a seat in the last row on the Republican side. Needham secured his old seat in the middle of the Republican side with Knowland on one side and Smith on the other; Kahn and Gillett a few rows back and Hays and McKinley in the adjoining tier. None were compelled to go to the "Cherokee Strip" on the Democratic side.

Vice-President Fairbanks and Speaker Cannon.

every part of the country." These he said, might be properly legislated, should the "minority of the majority" stand with the Democratic members in opposing the adoption of the old rules and forming new ones which would permit consideration of such legislation as popular opinion might dictate.

A committee was appointed to act with the Senate Committee in notifying President Roosevelt that Congress was ready to transact business; the Rules Committee and the Committee on Mileage were appointed, and the House adjourned after a session which lasted three and a half hours in compliance with resolutions reporting the death of Senator Platt of Connecticut, and Representative Marsh of Illinois.

The House session of the Fifty-ninth Congress has been looked forward to as one likely to be more than ordinarily eventful. Pending matters of commercial and political interest have proved intensely attractive during the long recess. Columns of newspaper space have been devoted daily for many weeks to predictions of legislative battles that may be fought by Democrats interested in the outcome of demands for railroad rate regulation or legislation, or on any one of a dozen public questions of equal importance. The matters to be urged upon the attention of Congress include the questions of protecting the interests of policy holders in insurance companies; Statehood for the remaining Territories; Panama Canal construction, immigration and the treatment of the Chinese, under the present exclusion law, raising revenue against a possible deficit, control of corporations engaged in interstate business, corrupt use of money at elections, the Philippines, Santo Domingo and other western republics, tariff questions and commercial competition with Germany, as well as the usual diversified subjects which the various executive departments annually present to Congress.

Early in the day the jobbers of the hotels were enlivened by many visitors preparing to attend the session and the crowds on the streets were all directed toward the big marble buildings on the hill. Although admission to the galleries was by card, this did not prevent hundreds of sightseers from wandering through the corridors and inspecting the committee rooms and other points from which the general public was not barred.

CAPITOL BRIGHTENED UP.

The visitors were greeted with many changes both on the exterior and interior. The finger marks of time have been scored away in the nine months that have elapsed since the last session. The steps and walls of the outside look new, but the greatest surprise is caused by the appearance of the interior of the building. The rotunda and dome have been accented and burnished until nothing is left of the stains of age that have been accumulating for fifty years; while granite and marble stand out with a boldness that almost repels. Bright new carpets have been laid on the floors of both chambers. The ceiling lighting arrangements of the Senate also have been enlarged.

No flags had floated over the Capitol for nine months, save on national holidays, but early today they were raised over the east and west entrances. As soon as the sessions were called to order flags were shown on the Senate and House wings of the building and were lowered when adjournment was taken.

PANAMA CANAL BILL.

INTRODUCED BY HEPBURN. (BY THE ASSOCIATED PRESS—P.M.) WASHINGTON, Dec. 4.—Representative Hepburn today introduced a bill to amend the Panama Canal law so as to facilitate the sale of bonds and appropriating \$15,000,000 to be immediately available for canal construction. The bill provides "that the bonds authorized by Section 8 of the act entitled 'An act to provide for the construction of a canal connecting the waters of the Atlantic and Pacific oceans,' approved June 28, 1902, shall be subject to the provisions of Section 13 of the act entitled 'An act to define and fix the standard of value, to maintain the parity of all forms of money issued or coined by the United States, to refund the public debt and for other purposes,' approved March 14, 1900, the same as though said bonds were issued under the provisions of said act of March 14, 1900."

Section 2 provides that the \$15,000,000 appropriated shall continue available until expended, provided that all expenditures from the appropriation herein made shall be reimbursed to the treasury of the United States out of the proceeds of the sale of the bonds authorized in Section 8 of the said act approved June 28, 1902. Section 3 provides that a detailed statement of the expenditures from this and subsequent appropriations for the construction of the isthmian canal shall be made annually to Congress at the beginning of each regular session.

SELTEN: AGENT FOR EXCURSION RATES

Policemen Stand Guard Over Heaps of Debris.

It is estimated that at least \$60,000 worth of personal belongings—diamonds, jewelry, bric-a-brac, wardrobes and money—either went up in smoke in the fire which destroyed the Coronado Hotel early yesterday morning, or lie in blackened remnants among the ruins of that artistic and exclusive house.

Inquiry yesterday brought out the following approximate schedule of losses: Judge Bordwell and Dr. Avert, loss on the hotel and loss by damage to the Coronado Annex by smoke and water, \$38,000; Misses Helen and Sarah Mat-

Dr. and Mrs. Johnson lost \$5000 in jewels, bric-a-brac and money.

On the second floor were also Mr. and Mrs. H. L. Wilson. Mr. Wilson is manager of the Southwestern Securities Company. They, like most of the other guests, barely escaped with their lives and lost everything but the night-robes in which they slept. Mrs. Wilson had just returned from Europe and had bought a new and a lot of rare and costly Irish linens. She mourns their destruction. The Wilsons are said to have lost \$4000 worth of personal property.

Mr. Hunsaker, aged 58 years, the father of ex-Judge William J. Hunsaker, lives in a handsome apartment on the second floor rear, immediately over the place where the fire started.

utes before the first piece of apparatus—a hose wagon—reached the scene. Yet the nearest fire house is only a few blocks away. That wagon brought only one short section of hose.

"When, on afterward, the first engine arrived, the driver drove up and down on Wilshire boulevard, shouting out: 'Where in — is the plug?' 'This engine did not have a fire up. Almost on my bended knees I begged a fire up. I was shouting on the top of my head, which by that time was a mass of leaping flames. '—, Madam,' he replied, 'how can I get a stream on? I haven't got any steam!' I asked him why he had not, and he said because there had not been time to do it between the engine house and the hotel. '—, fire up, fire up,' I shouted. 'A defective wiring obviously started a fire in the basement. All the light wires led to the very point in the base-

han drugs—it's pure

TUESDAY, DECEMBER 5, 1905.

MR. CHADWICK
IN COURT AGAIN.HE FAILS TO COMPLETE TESTI-
MONY AS PROMISED.Instead of Making Further State-
ments About Her Transactions, She
Goes Into State Bordered on Cal-
ifornia and Is Taken Back to Jail in
Hysterical Condition.

(BY THE ASSOCIATED PRESS—A.M.)

CLEVELAND (O.) Dec. 4.—Mrs. Cas-
sio L. Chadwick was taken into the
Federal Bankruptcy Court today upon
her own request for the purpose, she
stated, of completing her testimony as
to some of her financial dealings. Al-
though she recently stated that she
could reveal certain facts of impor-
tance, nothing of that nature was
brought out, and the hearing ended
with Mrs. Chadwick in a condition
bordering on collapse.Mrs. Chadwick said that she would
make some further statements con-
cerning her transactions, provided that
certain persons who have been
greatly through her dealings would
first tell what they knew. She men-
tioned Dr. W. S. Kitchin, president
of the state saving and trust com-
pany, of this city, and J. A. Smith, an
attorney and one of the directors of
the bank. Attorney Smith immediately
stated in the court that the only deal-
ings he had with Mrs. Chadwick were
about three years ago, when she bor-
rowed from the bank and some
months later the money was paid back
through him.Decided to give additional names,
Mrs. Chadwick became excited and al-
most hysterical and said she did not
wish to give them in public, stating
that she did not want to have any-
body exposed. She said that these
persons had lent to the extent of
hundreds of thousands of dollars by
her, and the money might be recov-
ered for the benefit of the creditors if
she were to give them.Pressured for the names, she refused to
give them, and finally showed evi-
dences of fainting, and was assisted
from the courtroom. Before being
taken back to jail she said she would
give the names to Trustee Nathan
Lester in private and he could do
what he thought best.

NECRO CLAIMS ALIBI.

Friends of Mallory, Texas Murder Sus-
pect, Move to Prevent His Re-
moval on Requisition.Representative negroes of Los An-
geles have interested themselves in the
case of Leroy P. Mallory, the negro
under arrest on a charge of murder
committed in Texas nearly six years
ago, and yesterday a committee wired
Gov. Parker, asking him to withhold
requisition papers until Mallory's case
could be thoroughly established.Mallory fears that if he is taken back
to Texas, he will be tried first and
tried afterward. He has appealed to
the secretary of war for his record
while in the army and hopes when a
reply is received that he will prove
conclusively that he was not in El
Paso at the time of the murder of
Florence Stewart and that he was in
no way implicated in the crime.Sheriff Briggs of El Paso is still in
the city, awaiting a reply from the
representative before starting back with
the prisoner. Mallory claims he was a
member of the Ninth Cavalry and
at Fort Wingate, N. M., when the crime
was committed by George McElroy and
others of the Twenty-fifth Infantry
stationed at Fort Bliss.

BOUGHT STORE WITH GOLD.

NEW CHARGE AGAINST ADAMS.

(BY THE ASSOCIATED PRESS—P.M.)

SEATTLE (Wash.) Dec. 4.—George
Edward Adams, former cashier of the
government assay office in this city
who is under arrest charged with big
defalcations, is now accused of having
purchased with gold taken from the
United States a half interest in a
store at Amsterdam, N. Y. His brother,
Frank L. Adams, is the owner of the
other half interest. Information to
this effect reached United States At-
torney Fry today. Mr. Fry says he
will take steps to attach the property.
"The Secret Service officers are now
making a thorough investigation in
New York and Boston, believing that
Adams owned interests there also. It
is stated that other arrests in this
connection will come soon."

GIRL DRIVES TO SUICIDE.

NOT LIKE MUELLER'S SISTER.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, Dec. 4.—A well-dressed
young man about 25 years old, who
said he was J. Joseph Mueller of Cin-
cinnati, and who came here two weeks
ago, committed suicide yesterday by
shooting himself in his room at No. 104
West Seventeenth street.
Nine letters, addressed and stamped,
were found in his room, ready to be
mailed, and one of these, to his sister,
referred to a girl in Cincinnati. One
sentence in it was: "If all girls were
like you (referring to his sister) I would
not have to die." The letter was ad-
dressed to "Miss Elizabeth Mueller,
19 Seventh street, Flat 61, West
Cincinnati, O., care Dr. Sewick."

CRIME BRIEFS.

Pat Crows Placed on Trial.

OMAHA, Dec. 4.—Pat Crows, the al-
timate kidnaper of Eddie Cadeau, was
today placed on trial on a charge of
attempting to break into a store of
the 6 last. In case of failure to con-
vince the jury on this charge, he will
be probably placed on trial in connection
with the kidnapping.

Boy Burglars Captured.

SAN FRANCISCO, Dec. 4.—Two boy
burglars who have been reaping rich
harvests in the western addition were
captured Saturday night while at-
tempting to break into No. 100 Schra-
der street. Since their capture de-
tectives have located over \$500 worth of
loot which it is alleged they had taken.
Their names are Albert Quill, aged 14,
and Frank Wortham, aged 12.

FIGHT FOR PEDDLERS.

Petition for Ordinance Raising License
to be Opposed This Morning.

Grocers on Other Side.

Peddlers and produce men generally
are preparing to fight the passage of an
ordinance raising the license of fruit
and vegetable peddlers from \$5 a month
to \$100 a year, a petition for which will
be presented to the Council today.
These people declare such an or-
dinance would work a hardship on small
dealers and practically drive certain
peddlers out of business.One peddler was entering his horse
and wagon for sale at the market yester-
day afternoon. He feared the or-
dinance would pass and said hundreds
would desire to go out of business.The stiff fight to be put up by the
peddlers and produce men leads many to
believe the ordinance will not be
passed. The grocers in the city are
lined up in favor of the ordinance, as
they declare the peddlers are ruining
their business.

A. L. Martin of the produce firm of

BREATHE HEALING BAL-
SAMSHymel, the Medicated-Air Cat-
arrh Cure, Endorsed by
Physicians.No one should confound Hymel
with the patent medicines that are
advertised to cure catarrh. It is a
superior to them all as the diamond
is more valuable than cheap glass.
Their composition is secret, but Hy-
mel gives its formula to all reputa-
ble physicians.Its base is the famous eucalyptus
oil, well known for its antiseptic qual-
ities. This is combined with aromatic
and healing gums and balsams, mak-
ing a pure liquid which, when used
in the Hymel pocket inhaler, fills
the air you breathe with germ killing,
disease destroying and healing powers
that restore health to every part of
the throat, nose and lungs.Hymel is endorsed by physicians
generally. Many of them use it them-
selves to break up a cold and prevent
pneumonia. It is the only natural and
rational way of curing catarrh.Would it be a common sense treat-
ment to try and cure a cold by stom-
ach dosing? Is it not just as foolish
to try and cure catarrh of the head
and throat by swallowing tablets or
liquids? The only natural way to cure
this disease and all diseases of the
respiratory organs is to breathe
Hymel.If you cannot obtain Hymel of your
dealer, it will be forwarded by mail,
postage paid, on receipt of price.
Write today for a free sample bottle
and consultation blank that will en-
title you to services of our medical
department without charge. The R.
T. Booth Company, Hymel Building,
Ithaca, N. Y.Marston & Martin, said concerning the
proposed ordinance:"The plan is hatched by those who
would drive the smaller peddlers en-
tirely out of business. It is unfair and
favors the grocers. The price of fruit
will be raised if the ordinance passes."
C. R. Dundore of the firm of Beasley
& Dundore said:"The grocers buy only the best grade
of fruit. The ordinance will work a
hardship on those who buy certain
class of fruit which must be sold at
once."Lawrence Shorten of the Shorten
Fruit Company, said:"We handle many crates of fruit
which the grocers will not take off our
hands because they cannot keep the
fruit more than a day on their shelves.
The peddlers dispose of this fruit at
once. The fruit is good and can be sold
at small cost to the consumer. Run
the peddler off the streets and this fruit
cannot be handled and must be dumped
by the grower. The proposed ordinance
would drive nearly three hundred men
out of business."The grocers will be represented this
morning by several of their number
who will make a fight for the passage
of the ordinance.

THE OIL INDUSTRY.

GUSHER AT

SANTA MARIA?

THIRD WITHIN A YEAR BROUGHT
IN BY THE UNION.Delay in Building Into Midway is
Reviving Reports as to Hush in
the Negotiations with Chancellor-
Canfield—Report is that Wells
do not Show up Enough.The Associated Press correspondent at
Santa Barbara last night reported that
a gusher is said to have been brought in
on the Purisma ranch near Lompoc.
The drillers are unable to cap it, an expe-
rience similar to that had with the Har-
well gusher which ran unchecked for
months. No details or confirmation
were obtainable last night.The location given in the Santa Bar-
bara report would indicate that this
new gusher is in a different portion of
the field from the Hartwell. It is the
third big gusher the Union has brought
in at Santa Maria within a year.

MIDWAY DEAL OFF?

The delay in actual building into the
Midway district by the Santa Fe rail-
road seems to lend color to the reports
constantly circulated of a hitch in the
negotiations between the railroad com-
pany and the Chancellor-Canfield Mid-
way Oil Company that have been re-
vived from time to time with the ut-
most persistence during the last few
months.According to these reports, which
come indirectly from railroad sources,
the Santa Fe does not seem to be fully
satisfied with the property at Midway,
that on inspection it has failed to come
up to what was expected of it and from
this reason the railroad is holding off.
The Chancellor-Canfield people are not
backward in maintaining the excellence
of their holdings which are very exten-
sive and their view is shared by others
interested in the Midway district whose
walls are adjoining theirs. The price
for a half interest was \$500,000.The Santa Fe is paying 15 cents for
the oil burned between Albuquerque
and Los Angeles under a ten year con-
tract with Chancellor-Canfield made
when oil was selling at 75 cents to \$1 a
barrel at the well. While effecting a
big saving over coal, this contract calls
for just double what the Empire has been
paying the Associated for the past two
and a half years and 20 cents more
than that called for under the contract
just made with the combine.Whatever the facts may be, there is
certainly a delay in work that may or
may not be accounted for in other
ways. Many reasons have been ad-
vanced, such as the scarcity of labor
and that there is no immediate demand
for the oil, as well as the fact that con-
siderable of the best property in Mid-
way—nearly all in fact outside of the
Chancellor-Canfield holding is tied up
in litigation.

"BACHELOR'S" PATRONESSES.

The Bachelor's Club, the newly-
formed social organization, is to
give a select ball at Kramer's Hall on

LONG ON GOOD LOOKS BUT VERY
SHORT ON WIND.

That some old span of beautiful bay horses—"good-lookers," horsemen call them—that has been the undoing of many purchasers, who took them on their looks instead of on trial, has again come into prominence. They have been used toward another horse world.

On Saturday he appeared with his horse and went direct to his friend, C. Dryden, who runs a horse corral on Lyon street. Now, Branch is a contractor who has been long in business, and prides himself on knowing a horse when he sees one, and it was not necessary for him to take Dryden with him to make a square deal and get the best of his fine roan. He took Gillette's corral, taking the horse and his harness, and was shown a pair of handsome bays, fine in limb and color of coat, and a trade was negotiated at once, Branch agreeing to give the roan horse and \$200 for the pair of bays.

There was some shy winking among the cabalists, who thought they recognized that bay team, but it was dark and nothing was said. The branch went to Dryden and called on the local owner of a team of harness to try his new team of horses morning.

"Can you can have them," said

"You, why didn't you try the store before you paid your money," said Branch. "Oh, they're all right," said Branch; "they're good-looking, and I know a horse when I see him."

Friday coming early, Branch was at riding up his new team, but when he had crossed them a blood with the heavy traces, they heaved like angry ponies, and he had difficulty in getting Branch's wagon back to the corral.

The laugh was on Branch, but he made haste to get over to the Gillespie and, loading the two sick boys by a rope, and getting them home as fast as could. They proved to be the

GOSPEL IN INDIA.
Workers Greet Miss Holman,
Returned Missionary, and Give
Aid to the Cause.
Charlotte Holman, sent out to
four years ago by the Pacific
of the Woman's Foreign Mis-
sionary Society, of the Methodist

was given a royal welcome
afternoon by the women of
the Church auxiliary. Mrs. Hel-
man arrived from Ajmer, In-
dian, and gave such a
thorough account of her work there in
need for orphan girls, nearly 300
are under her care, that sev-
eral present volunteered to
take little women, orphans or na-
turers.

Helman displayed samples of
needlework done by these or-
phans, and described their great
need. When the box arrived
it was sent out by the Pacific
coast conference.

Holman pictured the areas need-
ers, as there is but one mis-
to every 24,000 natives. Aljmere
population of 190,000. Miss Hol-
man in Hindostanes and brought
to the audience of Southern Asia so
that her audience that the close
support volunteers began to send
and names as supporters of mis-
workers.

Walter Fisher, Mrs. Wilson and
George R. Crow each became re-
for the support of a Bible
and Mrs. Funtoriani pledged
for both a native preacher and
woman. Mrs. Wood, who is
supporting one orphan in the

subscribed for another, and Frances Freeman, in behalf of the Light Bearers of the First Methodist Church, who already supported the campaign, became responsible for the tourist subscribed \$5. In response to the request for supporting helpers in India to fifteen women were upon their banks offering of the Pacific this year amounts to almost of which \$160 is contributed by the Methodist auxiliary. THE CITY IN BRIEF.

OUR WINTER HAS COME

NEWS AND BUSINESS.

Wanted in Fresno?

G. T. Sewell was arrested last evening by Detective Davis and Robert in a warrant from the authorities at Fresno charging him with defrauding a restaurant proprietor in that city.

No Clothes to Wear.

Paul Felt, whose petition states that he possesses neither wearing apparel nor personal belongings, pleaded bankruptcy in the United States court yesterday, alleging debts of \$530.

Accepted of Emigration.

F. C. Oettinger, accused of smuggling a horse across the Mexican border, was arraigned before United States Commissioner Van Dyke yesterday and is now in the County Jail awaiting trial.

Still Growing.

Postmaster Flint's monthly tabulations, just completed, show that the postal receipts for November in Los Angeles aggregated \$6,000.45—an increase of \$4.36 per cent. over the corresponding month last year.

Excursion Called Off.

On account of Friday's street car collision, in which a number of the women of Stanton Relief Corps, including the president, were injured, the excursion to have dinner at that organization today to the Soldiers Home has been indefinitely postponed.

Explosion Causes Fire.

The explosion of a parlor lamp in the home of J. O. Oimstead, No. 301 Avenue 21, last evening, caused a fire of \$500 in the building and \$200 on contents. No one was injured by the flying oil and bits of broken glass.

Carriages Disposed Of.

Harry and Walter Carrington, who have been held on the charge of impersonating United States officers, were disposed of in the Federal court yesterday. Harry being sentenced to six months in the County Jail, and Walter, who really is Walter Raymond, was turned loose.

Wife Accuses Him.

Patrolman Leon last evening arrested Mike Grassel on a warrant sworn out by his wife, charging him with disturbing the peace. Grassel came home with his wife two days ago from Santa Clara. It is alleged that he became intoxicated during the visit, and visited the rooms on North Alameda street, created a disturbance.

Owner Claims Find.

Patrolman Fisher found a claimant yesterday for the purse containing \$500 in drafts and \$10 in currency, which he picked up at Anaheim and Pico streets Sunday night. C. W. Johnson, a retired man, proved ownership of the purse and the contents.

John Wilson, alias John Johnson,

who was arrested in the Bonnie Brae district several days ago for begging and given a \$1000 fine, was released yesterday in the County Jail building. Special Officer Foster says the man has been guilty of forgetting names to credentials he carries, and that the fellow has carried on a systematic bunco game in the residence district. Wilson put up a fight when he was arrested, but he was lodged in jail.

Practical, helpful lecture was delivered to Times employees in the Assembly Room late yesterday afternoon

by D. Kenyon of the Sheldon School. Mr. Kenyon took as his subject "The Science of Business Building," and in his discourse dwelt chiefly upon the development of individual character as the greatest factor in successful business. Personally, he argued in ways that counts for so many, since personal qualities inspire confidence and confidence is the very essence upon which surely in any line may be permanently established.

Equal Suffragists.

The meeting of Southern California Equal Suffragists was called to order yesterday afternoon at 3 o'clock at the Woman's Club House with Mrs. Kenney, the president in the chair. Mrs. Anna S. Averill was present as a special guest and Mrs. L. M. Young gave a short talk on the subject of the suffragist. From Puyallup, Wash., as visitors were Mrs. Clara Shover, who related short stories of interest about the work in Washington, and Mrs. May M. Gibson, another prominent worker. Interesting from a scientific standpoint and from its intrinsic literary merit was a paper by Miss Cora M. Williams on "Woman's Suffrage from the point of view of Human Evolution."

Card of Thanks.

Mrs. J. P. Davenport and family wish to most sincerely thank the friends and neighbors who so kindly remembered them in their time of sorrow.

Funeral Notice.

The funeral of Mrs. Mary Mayne will be held at family residence, 181 North Anderson, Sunday, December 16, 11 a. m.

Los Angeles Transfer Co., 751-3 S. Spring.

Will check baggage at your residence to any point. Tel. M. 69 or 108. Home 26.

No. 126 South Grand. Lady assistant. Telephone Main 697. Home 511.

Pioneer Meeting.

The Pioneer of Los Angeles County will meet Tuesday, Dec. 12, 8 p. m., in Children's Hall, 11th and South Spring streets. The object of the meeting is to elect a board of directors and other important business will come before the society. All members are requested to attend.

J. M. QUINN, President.

J. M. QUINN, Secretary.

BREVITIES.

Times "Lines" Advertisers—Important change in rate for Sunday classified advertisements. Commencing Sunday, October 1, 1934, and thereafter, the rate for Sunday "Lines" will be 14 cents per word for each insertion; minimum charge, 25 cents, as at present. This slight advance is amply justified by the present Sunday circulation of The Times, which averages over 60,000 copies. (When the 1-cent per-word rate was established in 1923, the Times Sunday circulation was only 14,000 copies.) The "Lines" rate for the daily—1 cent per word—will stand as at present.

Glasses, if worn when needed, will save you a heap of trouble. The longer you put it off the worse it is for your eyes and pocketbook. Best Al crystal reading lenses in 10-year gold-filled frames, at 1.50. Others ask from \$2 to \$5. No extra charge for fitting these glasses to your eyes. Satisfaction guaranteed. Clark's, 351 S. Spring.

Dr. L. F. Preston of the Potomac Block asks for five or six patients suffering with tuberculosis in the second stage, which he will treat free of charge in order to prove that he can cure consumption. He will furnish his medicine free. Call at his office within the next few days.

Wanted—Professional and kodak finishing. If you want good results bring your work to me. I will do it just as cheap, if not cheaper than the other fellow and send you away happy. Angeles Photo Printing Co., 2912 Flower street.

The San Francisco office of the Los Angeles Times is in room 41, Chronicle building, Telephone Main 1172. Subscriptions and advertisements taken. Visitors will find copies of The Times free, and are welcome to call and read them.

mittee of the two universities, with instructions to report on the present status of the game and make any changes in the rules that they see fit. This board stood on the part of the two great coast universities, it is believed will save the game in the West. The smaller universities of the coast will be asked to bind themselves by the recommendations of the committee.

BIG ONES FOR
PRELIMINARY.TREMBLE AND HOGAN AGREE TO
BOX TEN ROUNDS.

Hanlon and Herman in Training. "Young" Corbett to Start for Los Angeles Today, and to go to his Training Immediately Upon Arrival. Other Gossip.

Jim Tremble and Johnny Hogan settled all outstanding differences yesterday and agreed to box a ten-round preliminary to the Herman-Hanlon fight the night of December 15. Forfeits of \$100 for weight, 185 pounds at 8 o'clock, are to be posted today. These men are big fellows, and of rather better than ordinary preliminary caliber. Tremble is accounted a shifty boxer, though he has never demonstrated much of a punch. Hogan has a boxer with Hugo Kelly to his credit and is a tough nut, being one of those sturdy little Irishmen who are built like a barrel on stilts, and can take all kinds of body mauling with it not pleasure, at least fairly good grace. Hogan attained quite a reputation as a scrapper around Chicago, and probably would have ascended considerably higher had he not been bitten by the pony bug, which for real danger to health—financial health at least—has the Sanarelli mosquito chained to his coop.

They say Fatty Hogan made it go good for a while—ran a shoe string into a hammer, as the phrase reads. But that wasn't enough; he wanted the shoe string back—and got it. That's why he is accepting dates at the present writing. Herman and Hanlon are both in training for their bout, which should dispose of the rumors that Eddie and the Kid are open to other engagements this month in San Francisco. As for "Young Corbett," he is scheduled to leave New York today for Los Angeles, and should arrive Saturday. Mike ("Twins") Sullivan left for San Francisco last night in hope of getting a go with Joe Gans.

Sports are already talking of the Corbett-Herrera fight and seem to anticipate a hummer. Conflicting reports about Corbett's condition will await his arrival here. When the pugilist little man begins training all can see for themselves whether he has "come back" or is just the same ex-champion.

U.A.C.-POMONA.
GAME IS ALMOST HERE.

If the stars do not fall, or the sun go dark Saturday—or some other dreadful thing happens. In the U.A.C. and Pomona will get together on a football field for the first time in three years to settle the mooted question of supremacy in a more decisive manner than by the customary vocal libations of hot air which have from time to time emanated from the parlors of each institution. The game is to be played at Fiesta Park and for keen rivalry ought easily to be the feature of the season. The teams are said to be friendly enough, but underneath it all there is a spirit of rivalry, which, taking on the ultra-partisan features which make enemies unless held in leash. There are all sorts of rumors as to the result of the game.

Men! Women!
I Can Make You Strong

Every woman admires a strong man. Every man admires a strong woman. Health, strength and happiness!

They are the joys of living. If you are a weak man or a weak woman I can give them to you. Electricity is the remedy of today. It has been a grand remedy for the past ten years. I have studied this subject more carefully than any physician ever studied text-books, and I can show results through the use of my method. I am curing men and women every day who were never able to get benefit through drugs. It is no easy matter to change the habits of people who have always sought health either in drugs or traveling about the country. They always get a certain temporary relief through one of these methods, and as they act under the advice of their physician, I can advise them to propose any different course. They always get a certain temporary relief through one of these methods, and as they act under the advice of their physician, I can advise them to propose any different course.

It is the next thing to meeting with success, however, in convincing many of them that my plan need not interfere with their using a course of treatment, because my appliance can be used while they sleep, and it is independent of any other form of treatment that may be used—and these people have been cured by my method.

Dr. McLaughlin's Electric Belt
Cures Nervous Debility, Varicose, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease (that has not gone as far as Bright's Disease), Indigestion, Constipation, Female Weakness and every indication that you are breaking down physically. I believe in finding the cause of all such troubles and removing it. If it is in the various organs I restore the power there. If it is in the nervous system, I build up the nervous force, and after I have removed the cause Nature does the rest.

San Martin, Cal. Dr. McLaughlin—Dear Sir: I cannot find words to express my gratitude to you for the help your Belt has been to me. The lame back, the tendency toward biliousness, and what used to trouble me most, the kidney complaint, are all gone. I cannot give your Belt too much praise for the good it has done me. It is truly a God-send to mankind. Yours gratefully, A. F. TOMKIN.

Mrs. A. N. Story, Grand View, San Jose, Cal., writes: "I was such a helpless wreck when I got the Belt, but I had no faith in it, but in less than fifteen days I was feeling so well that I could not realize that I was the same poor invalid who visited your office two weeks before."

There can be no pain and no weakness if every organ of the body and every nerve has all the strength it needs. Plenty of vitality creates perfect harmony of all vital forces and the joy of good health is supreme. The failure of medicine, of quacks and even of so-called electric belts, is no argument against Dr. McLaughlin's Electric Belt. No other treatment is in the same class with it. Everything else may fail, but Dr. McLaughlin's Belt will cure. It HAS cured thousands who tried other remedies without success.

Read My Free Book
I have a book which every man should read (one for women also). It tells facts of interest to every man who wants to remain young in vitality at any age. Send for this book today if you cannot call. I mail it, sealed, free. If you call I will give you a free test.

Consultation Free
Office Hours—8 a.m. to 8 p.m.; Sundays 10 to 1.

will be little love lost in the game, and each team will probably do everything fair, and as much unfair as it can get away with, rather than lose.

Trager and Hamilton, two of the best football officials who ever worked together at a game, will be in charge of the field as referee and umpire.

MANY DUMPS AT ASCOT.
TWO RIDERS TAKE TUMBLES IN THE HURDLE RACES.

Sports Also Fall Down on the First Three Events Which are Annexed by Long-priced Nags—Last Three Galleys go to Those Public Select to Win.

Two jockeys fell on their heads yesterday in the first jump race of the season at Ascot Park, and a majority of the sports went with them, for the stable mate of one of the nags that took a tumble, won the race at long odds, the heavily-played Irish running second all the way. The winner went out in the lead at the start and stayed there throughout, winning easily, and breaking the track record by a second.

The two boys who were dumped were Warrington on Lady Uak, and Sinclair on Adams. The Lady was felled at the start, and then, breaking away last, stumbled over the first Christmas tree. Adams kept on his feet until the last hurdle and in going over stumbled and dumped his jockey. Neither boys were hurt, apparently.

Three long shots took the first three races in the second day. "Vino in the spirit and Woodwind in the mile dash; the sports lost heavily on these.

The fourth race was won by Borgheal, the odds on favorite, which equalled the track record for the mile and fifty-yard course. The heavily-played Escalante took the fifth event from the favorite Albon, and the last race was won by the favorite, Albon, the good thing Montrose being bumped and finishing in the rack.

The fourth race presented quite a package to the bookmakers, and the finishing of Borgheal, Ninnasquaw and Ethylene named took considerable coin out of their strong boxes, but they saw the public coming next time and beat the ground game to it in handsome shape, most of the layers adding substantially to their stacks in the bank.

LAUD GEN. CHAFFEE.

(Continued from First Page)

here first in 1880. As you can imagine there was not then here anything to resemble one of the Los Angeles of today. The little city was huddled about the Plaza at one end of Main street.

Again, when I came here once more in 1881, there were no perceptible evidences of a growth. But when we came here next in 1886, we found a town. But that was nothing to what I am able to appreciate in the development and progress of the city since that time. I was informed then that had I purchased property when I first came here, I would have been a rich man. But that is neither here nor there. Mrs. Chaffee and I were charmed with the city then. We are more so now. And we are here to enjoy it all and to renew the pleasant acquaintances we formed in the earlier days of your city.

"In 1880, one could stroll all over the town in five minutes. Today I have ridden to the north, the south, east and west, and I have not yet struck the limits, nor can any one say what you will finally be content to make those limits."

"MAY COME HERE TO LIVE."
"We may come here to live with you."

But the speaker could proceed no farther. His last utterance struck a universal chord of popular approval, and a spontaneous burst of prolonged applause drowned his words.

He smiled broadly and continued, "but we are having difficulties in finding a house. My wife is hard to please, and so we shall probably have to build, so that will add another roof to the growing thousands of your city."

And the applause broke forth afresh, the distinguished guest added with true soldierly caution, "should we decide to come here to live. And I trust that you may find us all happy and prosperous next November."

Following the hearty applause which marked the end of the speaker's remarks, he and Mrs. Chaffee cordially shook hands with all present. Maj. Kinkead standing at his right to make the introduction.

But in many instances no introductions were necessary. The quick eye and ear of the speaker saw the approach of old-time friends and acquaintances, and he greeted them with a sincere heartiness, expressing more warmly than words his marked trait of seldom forgetting a face or a name.

While refreshments were being served, an opportunity was afforded those who had known Gen. and Mrs. Chaffee to chat with them for a few moments, and to express the private and military reception at the Angeles.

In Other Words Buy In

SALT LAKE STATION
TRACT

If you want big profits in the immediate future—buy near the Salt Lake Depot on First street. The Salt Lake Station tract is only a little over a block from the Salt Lake Depot. It is within easy walking distance of the business center. First street will be paved in a short time.

Lots Only \$400 AND UP
1-4 Cash, Balance 6, 12, and 18 Months

The Salt Lake Station Tract is the nearest subdivision to the business district. Nothing better in Los Angeles for renting or speculative purposes.

Lots here are selling cheaper than property five miles from the city. Property near transcontinental depots has intrinsic value.

Just consider property values in the vicinity of the Santa Fe Depot—the Salt Lake district will undergo the same commercial development. Where can you place \$400 to better advantage? Make it one of today's appointments to see the property. Prices are certain to advance in a few days. Be on the ground FIRST. "Ground floor men" always win out.
